

CASE FORMING MADE EASY

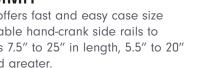

The EX-CF Case Former from Eastey Enterprises is designed for semi-automatic case forming and packing. The durable design has proven to keep production and maintenance efforts to a minimum to improve your case packing process. The EX-CF Case Former provides a fast and cost-efficient alternative to manual case forming.

EASY OPERATION

The EX-CF Case Former enables a single operator to form, pack, and seal corrugate cases. Operation is simple: open the case and place it in the top of the case former. Photo sensors activate the machine's flap folding mechanism to fold the bottom major and minor flaps. Once the flaps are folded, the case will stay in place while the case is filled by the operator. Filled cases can then be advanced into a taper for automated top and bottom case-sealing.

INCREASED PRODUCTIVITY

EX-CF Case Former offers fast and easy case size changes with adjustable hand-crank side rails to accommodate boxes 7.5" to 25" in length, 5.5" to 20" wide, and 3" tall and greater.

COMPACT CASE FORMING AND PACKING

Designed for semi-automatic case forming and packing, the EX-CF will improve productivity and increase your ROI

INDUSTRIAL QUALITY

Each EX-CF machine is made from sturdy 12 gauge steel, high quality construction, and a powder coated exterior to protect the machine from abusive conditions for guaranteed years of use. The EX-CF will be a workhorse in your industrial case packing operation.

INCREASED ROI

The use of Eastey's EX-CF case forming machine can be learned in minutes, avoiding breaks in production and downtime. For increased efficiency, EX-CF Case Former can be combined with an Eastey Case Taper for automated case sealing.

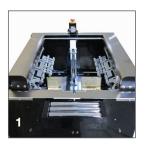

THE RIGHT SOLUTION

Rugged design. Proven reliability. Simple operation. Your benefits go on and on. When it comes to industrial operation, rely on Eastey Enterprises to provide the right solution for your case sealing needs.

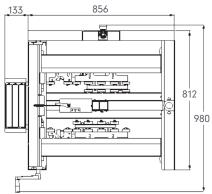

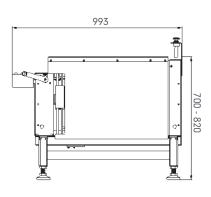

- 1. Stainless steel wear surfaces
- 2. Easy case size changes with adjustable folding/revolving crank handle
- 3. Air only operation with emergency stop
- 4. Adjustable foot extensions for level setup in your plant.

EX-CF FEATURES	EX-CF SPECIFICATIONS					
Plug-in and go operation	Machinery Makeup	Industrial strength 12 gauge steel, powder coated for durability				
Adjustable side guides	Conveyor Height Adj.	Conveyor Height Adj. 27" to 34.6"				
Adjustable foot extensions	BOX SPECIFICATIONS		Longth	Width	Donth	
Fast and easy box size changes	DUX SPECIFICATIONS		Length	wiath	Depth	
Low maintenance	Minimum Box Size		7.5"	5.5"	3"	
Accommodates wide case range	Maximum Box Size		25"	20"	19.5"	
Roller extension included for wide boxes small exit roller table included	Air Requirements	80 PSI				
	Electrical Requirements	None				
	Agency Approvals	CE Certification
